Dear brother/ sister,

Assalamualaikum

In the midst of a busy schedule, you have got a free time after your 1st MBBS exams. As you are in the medical profession, your life will become more and more congested as the years pass by. At any moment of this career, The Almighty will call us back to Him, from which we can't escape and on the day of judgement, we will be either in greatest success or in worst loss. We won't be given time to repent or return back to do good deeds. The preparation to succeed should be completed before death, time of which is unpredictable.

Friends, are we ready for such a departure? If not, this is the time to think and modify your life. MSM, the students' wing of Kerala Nadvathul Mujahideen (KNM) is creating a golden opportunity for you to sit with your friends and discuss these matters, learn the only way of life from authentic sources-Qur'an and Sunnah through eminent scholars. We invite you to this unique gathering-ILLUMINA with your friends. Students who completed 1st MBBS from various medical colleges in Kerala will be there with you, Insha Allah.
